

TERMINAL UNIT - MEDIUNIT (AFNOR)

Recessed version

Exposed version

Maintenance valve

Installation plug

Medical terminal units provide quick and easy connection of hospital ward gas equipment to the hospital gas source. The type of medical gas outlets are decided by national standards in each country and sometimes from local requests in each hospital. GCE complies with ISO 7396 and national installation standards with secure products where every product is fully tested in production. Our Medical gas outlets are in accordance with ISO EN 9170-1, ISO EN 9170-2 international standards.

- All functional components are from brass
- Simple installation
- Fast connection and disconnection
- Air-800 with parking position
- Designed for medical environment, Small size and Easy to clean
- Complies with colour coding and description by standard
- Maintenance valve with filter
- Fast and simple maintenance
- Recessed, Exposed and Bed head installation versions
